

GrowMax

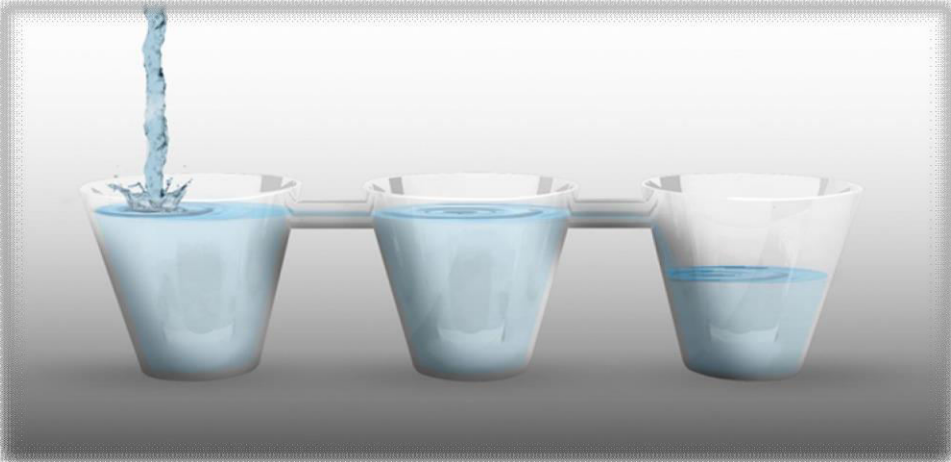

[Organic Chromium for Maximum Growth]

An Easy Bio Solution
to combat Stress and Improve Performance

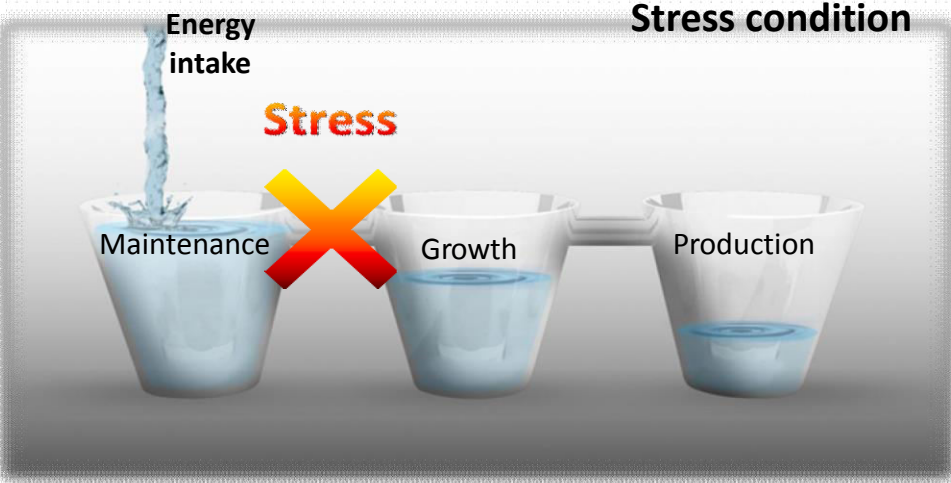

BODY RESPONSE TO STRESS

Impact of stress on Productivity

Glucocorticoids are the main compound produced in stress conditions and they inhibit functions like: **growth, reproduction, immune system and inflammation**, to conserve energy, so that it can be used for the brain and other essential organs to counteract stress.

CHRONIC STRESS RELATED EFFECTS

- Drop in production (egg /meat/milk)
- Poor feed conversion ratio (FCR)
- Immune suppression
- Increase in egg breakage
- Drop in fertility
- Increase in mortality rate

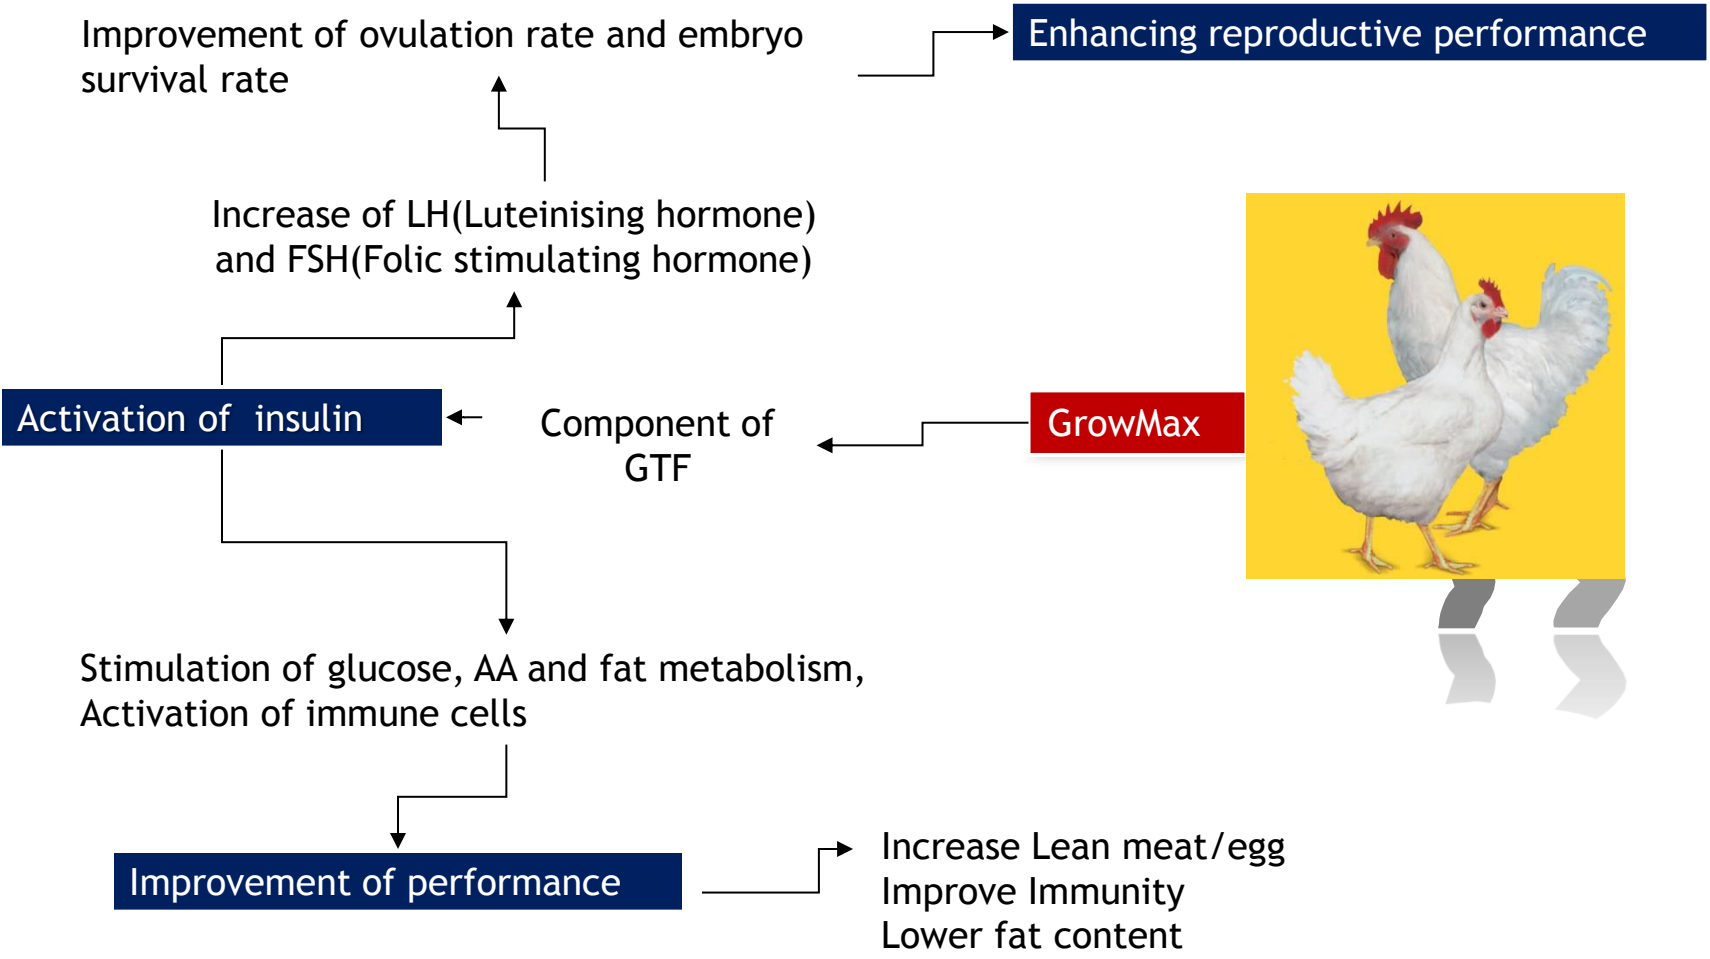

“Long-term exposure to stress can lead to serious problems since chronic stress disrupts every system in body.”

WHAT IS GROW MAX !

- ▶ Chromium is one of essential mineral for animal diet
- ▶ Chromium Picolinate(CrPic) is organic source of Chromium(Cr)
- ▶ Grow Max is Chromium Picolinate of EasyBio

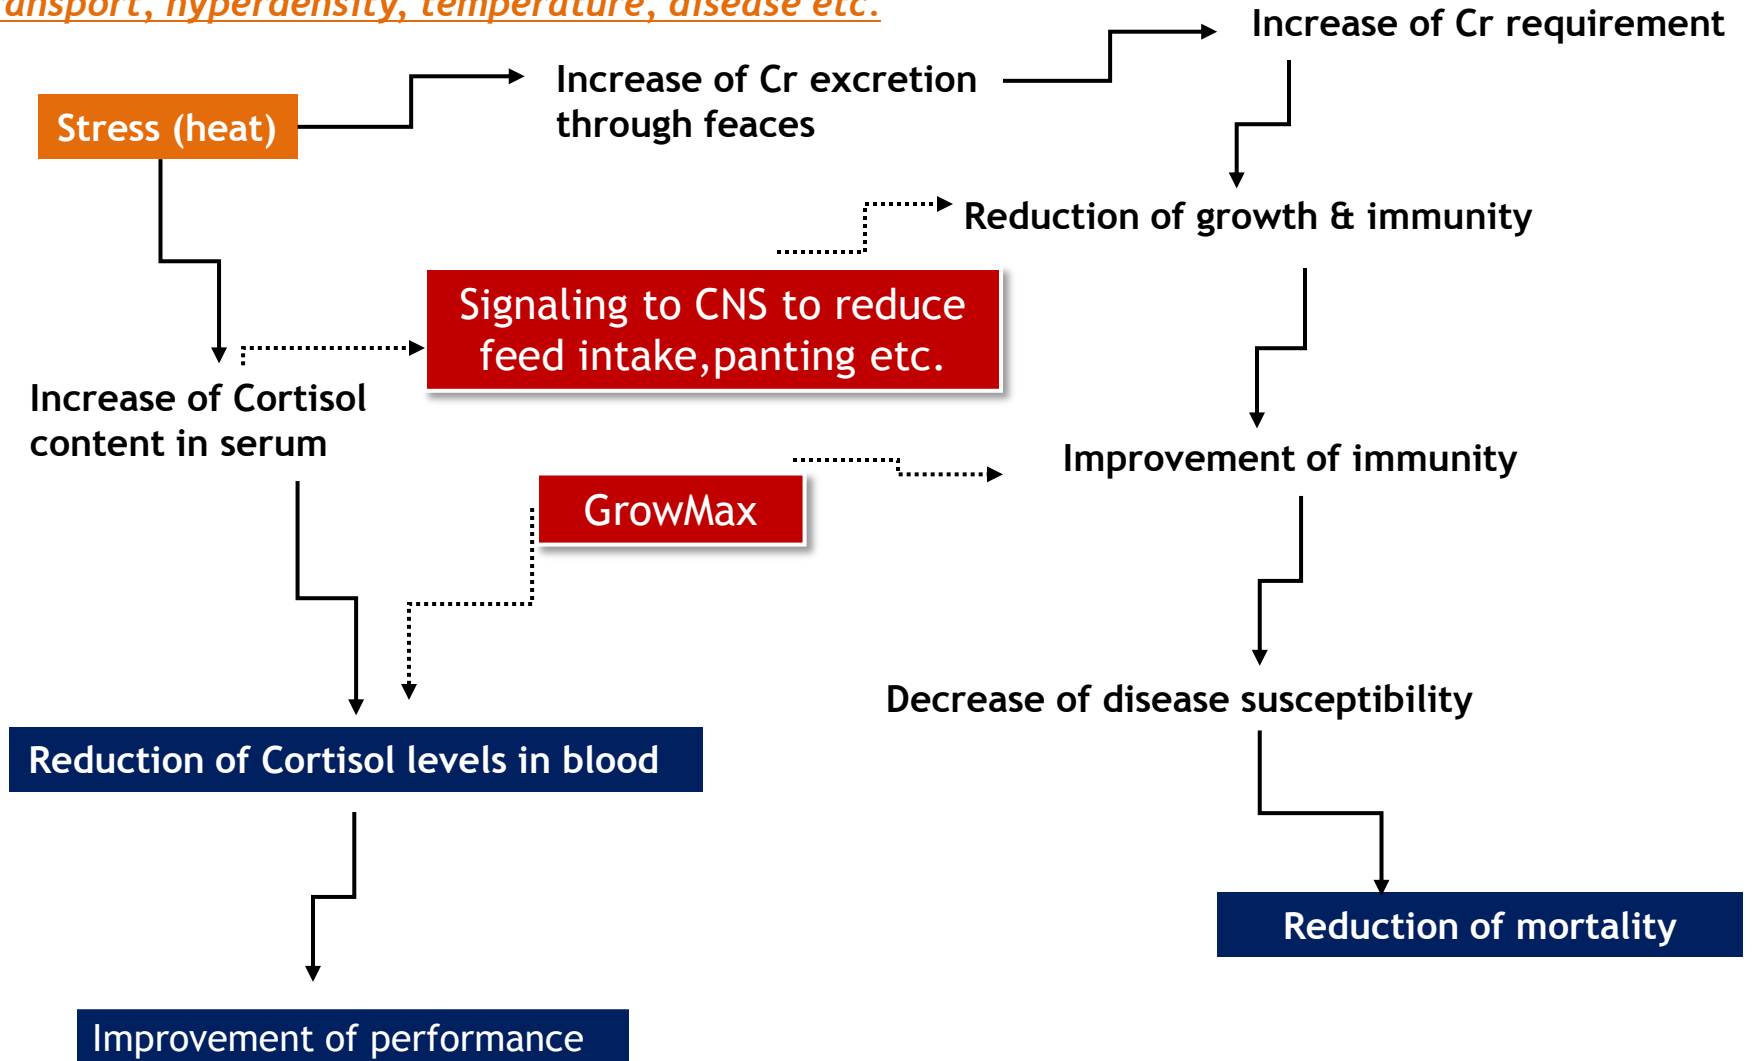

Major Components	Composition
Chromium (from Chromium Picolinate)	Min. 400 mg/kg
Chromium Picolinate	Min. 0.3%

Mode of action of GrowMax on performance

Mode of action of GrowMax under stress condition

Transport, hyperdensity, temperature, disease etc.

Specification and Application

- ▶ **Chromium content**
 - Min. 400ppm from Chromium Picolinate
 - Min. 0.3% of Chromium Picolinate
- ▶ **Dosage**
 - 500g per ton of feed (0.05% of feed)
 - 200ppb of Chromium from Chromium Picolinate(recommended dosage)
- ▶ **Packing unit**
 - 20kg
